ABOUT OUR WALLE PORTABLE POWER STATION

The WALLE 3K is a powerful and versatile portable power station engineered to perform in the most demanding environments. Its compact, hand-carriable design, combined with durable dustproof and water-resistant protection, ensures dependable performance wherever power is needed. Delivering an impressive 20,000W peak output and 3,600W of continuous power, the WALLE 3K is built to handle high-demand equipment, including pumps, grinders, welders, and other power-intensive tools.
